

Astronomers of Verde Valley

Astronomers of Verde Valley is an amateur astronomy club that serves the communities of the Verde Valley, Arizona. Here, surrounded by the Minus Mountains and the Red Rock country of Sedona, we are favored by the clear air and dark skies of the high desert. We have an enthusiastic and varied membership that includes scientists, professional astronomers, teachers, authors, students, and big-city refugees from all walks of life. Our mission is to inform, educate and entertain by providing a varied and interesting program of activities for our membership and the communities we serve. Our projects include educational programs and presentations by guest speakers and our members, practical telescope design and construction, public star parties, field observation of various astronomical events and trips to observatories and other space science venues.

Monthly Events

The Astronomers of Verde Valley hold several viewing events each year. Please refer to our web site for up to date scheduling.

[Http://www.astroverde.org](http://www.astroverde.org)

General Meetings

Monthly meetings are held at the Verde Valley Medical Center Conference Room C on the Saturday closest to the full Moon.

Times for the meetings are 6:30PM until 9:00PM.

The Astronomers of Verde Valley will do public events for schools and other educational groups at no charge. Contact us by phone or email for details to set up an event.

ASTRONOMERS OF VERDE VALLEY

Program & Meeting Highlights

Our monthly meetings are always full of information and observing reports. The novice as well as advanced observer will be sure to enjoy our programs. Many of our members are becoming Astro Photographers and many of their pictures and techniques will be shown.

The public is welcome to attend any of our monthly meetings or star parties.
